Wood Modification: Physical Properties and Biological Efficacy

Message from the Guest Editor

Wood modifications represent an exciting opportunity to extend the life of wood used in outdoor applications using non-toxic chemicals. The commercial availability of modified wood is growing. At the same time, research in this area is needed to support the growth and development of these technologies. The methods by which these wood modifications impart protection against decay fungi is still an active area of research. Likewise, a full characterization of how wood modifications affect wood properties is still lacking. For this Special Issue, we invite authors to submit papers that address the gaps in our understanding of wood modification.

About the Journal

Message from the Editor-in-Chief

Forests (ISSN 1999-4907) is an international and cross-disciplinary, scholarly forestry journal. The distinguished editorial board and refereeing process ensures the highest degree of scientific rigor and review of all published articles. Original research articles and timely reviews are released online, with unlimited free access. Our goal is to have *Forests* be recognized as one of the foremost publication outlets for high quality, leading edge research in this broad and diverse field. We therefore invite you to be one of our authors, and in doing so share your important research findings with the global forestry community.

Editor-in-Chief

Prof. Dr. Giacomo Alessandro Gerosa

Department of Mathematics and Physics, Catholic University of Brescia,
I-25121 Brescia, Italy

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, GEOBASE, PubAg, AGRIS, PaperChem, and other databases.

Journal Rank:

JCR - Q2 (Forestry) / CiteScore - Q1 (Forestry)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.1 days after submission; acceptance to publication is undertaken in 2.4 days (median values for papers published in this journal in the first half of 2025).
