

# Special Issue

## Wood Structure and Properties

### Message from the Guest Editor

Knowledge of wood structure and properties is crucial for more efficient processing of the material, and for better manufacturing products made of wood and wood-based materials. The aim of this Special Issue is to provide the newest fundamental knowledge of the structure and properties of wood. We welcome papers presenting the results of cutting-edge research on wood science, especially works using advanced research methods and presenting new approaches to characterize the material. We plan to publish high quality papers presenting research on the fundamental structure and properties of wood and wood-based materials.

## About the Journal

### Message from the Editor-in-Chief

*Forests* (ISSN 1999-4907) is an international and cross-disciplinary, scholarly forestry journal. The distinguished editorial board and refereeing process ensures the highest degree of scientific rigor and review of all published articles. Original research articles and timely reviews are released online, with unlimited free access. Our goal is to have *Forests* be recognized as one of the foremost publication outlets for high quality, leading edge research in this broad and diverse field. We therefore invite you to be one of our authors, and in doing so share your important research findings with the global forestry community.

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, GEOBASE, PubAg, AGRIS, PaperChem, and other databases.

#### Journal Rank:

JCR - Q2 (Forestry) / CiteScore - Q1 (Forestry)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.1 days after submission; acceptance to publication is undertaken in 2.4 days (median values for papers published in this journal in the first half of 2025).
