

Special Issue

Wood Technology Standardization and Wood Products

Message from the Guest Editors

Standardization is a key factor concerning the organization of society and has a significant impact on the system of transactions and production processes. It concerns all people since it can be applied to all the fields of human activity. Its application can be implemented spontaneously as a result of a habit or a custom, but it can also be implemented consciously after thoroughly planning with the introduction and application of certain rules described in technical specifications/norms or standards. The specific Special Issue focuses on the analysis of the standardization of round wood, sawn wood, wood-based products (veneers, plywood, glued laminated timber, fiberboards, particleboards, OSB, CLT, LVL, wood-plastic composites, among others), wooden structures and furniture, chemical products of wood and its components, forest biomass-based biofuels (pellets, briquettes, etc.), wood adhesives, wood preservatives and the respective methods applied for the production of wood products, as well as their preservation and quality assessment.

About the Journal

Message from the Editor-in-Chief

Forests (ISSN 1999-4907) is an international and cross-disciplinary, scholarly forestry journal. The distinguished editorial board and refereeing process ensures the highest degree of scientific rigor and review of all published articles. Original research articles and timely reviews are released online, with unlimited free access. Our goal is to have *Forests* be recognized as one of the foremost publication outlets for high quality, leading edge research in this broad and diverse field. We therefore invite you to be one of our authors, and in doing so share your important research findings with the global forestry community.

Editor-in-Chief

Prof. Dr. Giacomo Alessandro Gerosa

Department of Mathematics and Physics, Catholic University of Brescia,
I-25121 Brescia, Italy

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, GEOBASE, PubAg, AGRIS, PaperChem, and other databases.

Journal Rank:

JCR - Q2 (Forestry) / CiteScore - Q1 (Forestry)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.1 days after submission; acceptance to publication is undertaken in 2.4 days (median values for papers published in this journal in the first half of 2025).
