

Special Issue

Biodiversity and Ecology of Organisms Associated with Woody Plants

Message from the Guest Editors

This Special Issue aims to present the recent advances in the knowledge on the biodiversity and ecological aspects of beneficial and harmful organisms inhabiting or somehow associated with woody plants. Relevant topics include, but are not limited to, the following: above and belowground communities, micro and macroorganisms, population density, seasonal changes, invasive pests and pathogens, pollinators, natural enemies, mutualistic interactions, competition, the effects of pollution and global warming, methods and modelling.

This Special Issue will accept studies from broad research topics related to all organisms associated with woody plants growing in different types of ecosystems. Studies conducted in the field are preferred but laboratory studies, including theoretical approaches (simulation modelling studies and literature reviews) are also of interest. Short communications on methods or presenting preliminary but significant results will also be considered.

Guest Editors

Dr. Katarína Pastirčáková

Department of Plant Pathology and Mycology, Institute of Forest Ecology, Slovak Academy of Sciences, Nitra, Slovakia

Dr. Rostislav Zemek

Institute of Entomology, Biology Centre CAS, 370 05 Ceske Budejovice, Czech Republic

About the Journal

Message from the Editor-in-Chief

Forests (ISSN 1999-4907) is an international and cross-disciplinary, scholarly forestry journal. The distinguished editorial board and refereeing process ensures the highest degree of scientific rigor and review of all published articles. Original research articles and timely reviews are released online, with unlimited free access. Our goal is to have *Forests* be recognized as one of the foremost publication outlets for high quality, leading edge research in this broad and diverse field. We therefore invite you to be one of our authors, and in doing so share your important research findings with the global forestry community.

Editor-in-Chief

Prof. Dr. Giacomo Alessandro Gerosa

Department of Mathematics and Physics, Catholic University of Brescia,
I-25121 Brescia, Italy

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, GEOBASE, PubAg, AGRIS, PaperChem, and other databases.

Journal Rank:

JCR - Q2 (Forestry) / CiteScore - Q1 (Forestry)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.1 days after submission; acceptance to publication is undertaken in 2.4 days (median values for papers published in this journal in the first half of 2025).
