Special Issue

Research, Assessment, and Management of Invasive Plant Species

Message from the Guest Editors

Invasion of alien species by recognized as one of the most serious threats to the preservation of natural biodiversity. Invasive plants displace native species from natural phytocenoses, causing serious damage to the environment, the economy, and even human health. The problem of biological invasions is in the spotlight of the general public. Particularly significant negative impacts have been caused when invasive species have invaded into forest plant communities, reducing their economic and recreational value and preventing the natural regeneration of the concerned stands. We invite you and your colleagues to publish your reviews and articles in this Special Issue, entitled "Research, Assessment, and Management of Invasive Plant Species", and contribute to the expansion of scientific knowledge on plant invasions. This will help to develop science-based, effective measures to combat aggressive invaders.

About the Journal

Message from the Editor-in-Chief

Forests (ISSN 1999-4907) is an international and cross-disciplinary, scholarly forestry journal. The distinguished editorial board and refereeing process ensures the highest degree of scientific rigor and review of all published articles. Original research articles and timely reviews are released online, with unlimited free access. Our goal is to have Forests be recognized as one of the foremost publication outlets for high quality, leading edge research in this broad and diverse field. We therefore invite you to be one of our authors, and in doing so share your important research findings with the global forestry community.

Editor-in-Chief

Prof. Dr. Giacomo Alessandro Gerosa

Department of Mathematics and Physics, Catholic University of Brescia, I-25121 Brescia, Italy

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, GEOBASE, PubAg, AGRIS, PaperChem, and other databases.

Journal Rank:

JCR - Q2 (Forestry) / CiteScore - Q1 (Forestry)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.1 days after submission; acceptance to publication is undertaken in 2.4 days (median values for papers published in this journal in the first half of 2025).
