

## Special Issue

# Pollination and Bee Biodiversity in Forest Ecosystems

### Message from the Guest Editors

This Special Issue aims to focus on bee biodiversity and pollination services in forest ecosystems, ranging from the boreal forests to the tropics. Topics of interest include faunistic studies of forest bee biodiversity, the community structure of plant–pollinator interactions in forest ecosystems, the pollination biology of rare and endangered forest species, bee nesting sites in forests (above and below ground), the impact of bees on the reproductive success of native and non-native plants, and the economics of bee foraging and resource gathering.

## About the Journal

### Message from the Editor-in-Chief

*Forests* (ISSN 1999-4907) is an international and cross-disciplinary, scholarly forestry journal. The distinguished editorial board and refereeing process ensures the highest degree of scientific rigor and review of all published articles. Original research articles and timely reviews are released online, with unlimited free access. Our goal is to have *Forests* be recognized as one of the foremost publication outlets for high quality, leading edge research in this broad and diverse field. We therefore invite you to be one of our authors, and in doing so share your important research findings with the global forestry community.

---

### Editor-in-Chief

Prof. Dr. Giacomo Alessandro Gerosa

Department of Mathematics and Physics, Catholic University of Brescia,  
I-25121 Brescia, Italy

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, GEOBASE, PubAg, AGRIS, PaperChem, and other databases.

#### Journal Rank:

JCR - Q2 (Forestry) / CiteScore - Q1 (Forestry)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.1 days after submission; acceptance to publication is undertaken in 2.4 days (median values for papers published in this journal in the first half of 2025).
