

# Special Issue

## Applied Forest Classification

### Message from the Guest Editors

We propose a Special Issue that provides the current state of knowledge of forest community classification and the importance of characterizing forest communities for research, management, and conservation, focusing on the application of classifications. This Special Issue examines the current use of vegetation classification and the future of such classifications in forest systems, presenting innovative works highlighting the importance of forest classification and mapping for documenting vegetation dynamics, for informing conservation management and for developing policy. Papers submitted to this Special Issue should address how classifications can stay abreast of vegetation change, describe the importance of classification for modeling patterns and risk assessment, discuss the importance of public data and large datasets in ecological research, and forecast roles classifications play in the future of ecological research and conservation planning.

## About the Journal

### Message from the Editor-in-Chief

*Forests* (ISSN 1999-4907) is an international and cross-disciplinary, scholarly forestry journal. The distinguished editorial board and refereeing process ensures the highest degree of scientific rigor and review of all published articles. Original research articles and timely reviews are released online, with unlimited free access. Our goal is to have *Forests* be recognized as one of the foremost publication outlets for high quality, leading edge research in this broad and diverse field. We therefore invite you to be one of our authors, and in doing so share your important research findings with the global forestry community.

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, GEOBASE, PubAg, AGRIS, PaperChem, and other databases.

#### Journal Rank:

JCR - Q2 (Forestry) / CiteScore - Q1 (Forestry)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.1 days after submission; acceptance to publication is undertaken in 2.4 days (median values for papers published in this journal in the first half of 2025).
