Special Issue

Ecology, Identification and Management of Forest Diseases

Message from the Guest Editor

The protection of forests from biotic diseases and abiotic disorders is crucial for the conservation of biodiversity and the environmental, ecological, and social roles of forest ecosystems. In the last several decades, international trade and climate change have been increasing the threat to forest ecosystems posed by new diseases worldwide. In this context, it is essential to expand knowledge on forest pathosystems, ecological aspects of forest pathogens, and sustainable control strategies. This Special Issue aims to explore pathological problems occurring in natural and seminatural forest ecosystems, as well as forest nurseries. We invite contributions which provide new insights into the ecology, etiology, and management of forest diseases. Original research works on practical aspects of forest disease diagnosis, epidemiology, and population genetics of forest plant pathogens are also welcome.

About the Journal

Message from the Editor-in-Chief

Forests (ISSN 1999-4907) is an international and cross-disciplinary, scholarly forestry journal. The distinguished editorial board and refereeing process ensures the highest degree of scientific rigor and review of all published articles. Original research articles and timely reviews are released online, with unlimited free access. Our goal is to have Forests be recognized as one of the foremost publication outlets for high quality, leading edge research in this broad and diverse field. We therefore invite you to be one of our authors, and in doing so share your important research findings with the global forestry community.

Editor-in-Chief

Prof. Dr. Giacomo Alessandro Gerosa

Department of Mathematics and Physics, Catholic University of Brescia, I-25121 Brescia, Italy

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, GEOBASE, PubAg, AGRIS, PaperChem, and other databases.

Journal Rank:

JCR - Q2 (Forestry) / CiteScore - Q1 (Forestry)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.1 days after submission; acceptance to publication is undertaken in 2.4 days (median values for papers published in this journal in the first half of 2025).
