

## Special Issue

# Foresight for Forest Bioeconomy

### Message from the Guest Editor

Forest bioeconomy may be seen as a concept bridging current forest-based businesses and policies and visionary thinking on sustainable and inclusive biosociety. To further towards operable societal transformation, we need better understanding of the trends and drivers within the operational environment of forest bioeconomy. Not only are technological advances prevalent, but also economic, social, political, and environmental aspects of future developments deserve attention. In particular, exploring weak signals, potential game changers and disruptors, transformative tipping points and their possible timing may meaningfully add to existing literature on forest bioeconomy foresight. For this Special Issue, authors are encouraged to submit studies that look at futures of forest bioeconomy from the viewpoints of new bio-based forest products and their markets, services and business concepts, policies and governance, discourses, practices and consumer behaviour, as well as measures to understand and influence the transformation towards biosociety.

## About the Journal

### Message from the Editor-in-Chief

*Forests* (ISSN 1999-4907) is an international and cross-disciplinary, scholarly forestry journal. The distinguished editorial board and refereeing process ensures the highest degree of scientific rigor and review of all published articles. Original research articles and timely reviews are released online, with unlimited free access. Our goal is to have *Forests* be recognized as one of the foremost publication outlets for high quality, leading edge research in this broad and diverse field. We therefore invite you to be one of our authors, and in doing so share your important research findings with the global forestry community.

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, GEOBASE, PubAg, AGRIS, PaperChem, and other databases.

#### Journal Rank:

JCR - Q2 (Forestry) / CiteScore - Q1 (Forestry)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.1 days after submission; acceptance to publication is undertaken in 2.4 days (median values for papers published in this journal in the first half of 2025).
