Special Issue

Remote Sensing of Forest Disturbance

Message from the Guest Editors

Exciting advances are occurring in the field of remotely sensed forest disturbance detection, involving: sensor fusion; new and increasingly institutionalized applications; characterization of type and magnitude of change; improvement to computing and data system resources; and more sophisticated time series analysis. This Special Issue of Forests will highlight both new techniques and new applications. Research may take place anywhere in the world, using any combination of sensors, but must represent fundamental advances in how remotely sensed data are used. Application of established methods in new areas is not within the issue's scope. All manuscripts must address validation and uncertainty. Submissions are welcomed until 2 June, 2017.
Dr. Warren B. Cohen

About the Journal

Message from the Editor-in-Chief

Forests (ISSN 1999-4907) is an international and cross-disciplinary, scholarly forestry journal. The distinguished editorial board and refereeing process ensures the highest degree of scientific rigor and review of all published articles. Original research articles and timely reviews are released online, with unlimited free access. Our goal is to have *Forests* be recognized as one of the foremost publication outlets for high quality, leading edge research in this broad and diverse field. We therefore invite you to be one of our authors, and in doing so share your important research findings with the global forestry community.

Editor-in-Chief

Prof. Dr. Giacomo Alessandro Gerosa
Department of Mathematics and Physics, Catholic University of Brescia, I-25121 Brescia, Italy

Author Benefits

High Visibility:
indexed within Scopus, SCIE (Web of Science), Ei Compendex, GEOBASE, PubAg, AGRIS, PaperChem, and other databases.

Journal Rank:
JCR - Q2 (Forestry) / CiteScore - Q1 (Forestry)

Rapid Publication:
manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.1 days after submission; acceptance to publication is undertaken in 2.4 days (median values for papers published in this journal in the first half of 2025).
