## Community- and Ecosystem-Level Impacts of Invasive Species

### Message from the Guest Editors

Most forest ecosystems around the world have been invaded by exotic species, but the impacts vary substantially over space. The effects of invasion also vary across trophic and spatial scales.

This Special Issue aims to reveal (1) current knowledge and major information gaps; (2) how natural disturbance and management (e.g., harvesting, fire, and grazing) affect and are affected by the impacts; and (3) how human activities and climate change may affect future invasions and impacts. The findings will help in the identification of invasion hotspots and inform policymakers when developing adaptive strategies to effectively practice prevention, early detection/eradication, and better management. This Special Issue will publish both reviews and articles.

## About the Journal

### Message from the Editor-in-Chief

*Forests* (ISSN 1999-4907) is an international and cross-disciplinary, scholarly forestry journal. The distinguished editorial board and refereeing process ensures the highest degree of scientific rigor and review of all published articles. Original research articles and timely reviews are released online, with unlimited free access. Our goal is to have *Forests* be recognized as one of the foremost publication outlets for high quality, leading edge research in this broad and diverse field. We therefore invite you to be one of our authors, and in doing so share your important research findings with the global forestry community.

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, GEOBASE, PubAg, AGRIS, PaperChem, and other databases.

#### Journal Rank:

JCR - Q2 (Forestry) / CiteScore - Q1 (Forestry)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.1 days after submission; acceptance to publication is undertaken in 2.4 days (median values for papers published in this journal in the first half of 2025).
