Forest Landscape Management: From Data to Decision

Message from the Guest Editors

Forest management practices and their impacts on ecosystems have been mostly studied to support multifunctionality and sustainability of forests. However, it is evident that the forest alone influences the landscape and vice versa. Forest resources management impacts on the landscape scale is insufficiently studied. This Special Issue consists of a presentation of scientific papers on (i) data, (ii) risk and uncertainty, (iii) modelling and assessment, and (iv) decision. Progressive and innovative approaches in data gathering are all addressed within the first thematic area. Risk and uncertainty analysis and modelling approaches for predicting landscape components development are also covered by this Special Issue. The last part is the prerequisite for development of an effective decision support system supporting bio-economy and ecosystem services.

About the Journal

Message from the Editor-in-Chief

Forests (ISSN 1999-4907) is an international and cross-disciplinary, scholarly forestry journal. The distinguished editorial board and refereeing process ensures the highest degree of scientific rigor and review of all published articles. Original research articles and timely reviews are released online, with unlimited free access. Our goal is to have *Forests* be recognized as one of the foremost publication outlets for high quality, leading edge research in this broad and diverse field. We therefore invite you to be one of our authors, and in doing so share your important research findings with the global forestry community.

Editor-in-Chief

Prof. Dr. Giacomo Alessandro Gerosa

Department of Mathematics and Physics, Catholic University of Brescia,
I-25121 Brescia, Italy

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, GEOBASE, PubAg, AGRIS, PaperChem, and other databases.

Journal Rank:

JCR - Q2 (Forestry) / CiteScore - Q1 (Forestry)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 16.8 days after submission; acceptance to publication is undertaken in 2.5 days (median values for papers published in this journal in the second half of 2025).
