

## Special Issue

# Impacts, Monitoring and Management of Forest Pests and Diseases

### Message from the Guest Editors

Forest pests and diseases have diverse negative impacts on the forestry economy, ecosystem service, biodiversity, and sustainable ecosystem management. Monitoring their occurrence and the assessment of their impacts are a first step to effectively manage forest pests and diseases. It provides basic knowledge about forest pests and diseases, as well as proper management methods. Based on the data from monitoring programs, new methods for monitoring, assessing impacts, and developing management techniques could be developed. To provide a better understanding of the structure and processes in the forest ecosystems, and to provide fundamental information for effective management of forest pests and diseases, this Special Issue will accept studies from broad research topics related to impacts, monitoring, and management of forest pests and diseases, including case studies, methods, theories, and models.

### Guest Editors

Prof. Dr. Young-Seuk Park

Ecology and Ecological Informatics, Department of Biology, Kyung Hee University, Seoul 02447, Republic of Korea

Dr. Won Il Choi

National Institute of Forest Science, Seoul, Republic of Korea

### Deadline for manuscript submissions

closed (30 June 2019)

## About the Journal

### Message from the Editor-in-Chief

*Forests* (ISSN 1999-4907) is an international and cross-disciplinary, scholarly forestry journal. The distinguished editorial board and refereeing process ensures the highest degree of scientific rigor and review of all published articles. Original research articles and timely reviews are released online, with unlimited free access. Our goal is to have *Forests* be recognized as one of the foremost publication outlets for high quality, leading edge research in this broad and diverse field. We therefore invite you to be one of our authors, and in doing so share your important research findings with the global forestry community.

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, GEOBASE, PubAg, AGRIS, PaperChem, and other databases.

#### Journal Rank:

JCR - Q2 (Forestry) / CiteScore - Q1 (Forestry)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.1 days after submission; acceptance to publication is undertaken in 2.4 days (median values for papers published in this journal in the first half of 2025).
