Political Ecology of Forests Ecosystem Services

Message from the Guest Editor

Ecosystem services have been widely discussed in not only scientific studies but also policy making since the UN Millennium Ecosystem Assessment (MEA) was published. The ecosystem services from forests are essential for human wellbeing in demand for all categories of ecosystems, but what factors and how they influence the supply is less known and the supply of the ecosystem services is not free. Who benefits at whose costs of the ecosystem services and by what factors? The biophysical and socio-economic assessments aiming to quantify the factors and trade-off of ecosystem services for human well-being serve as a support for designing better policies in forest management and governing.

The aim of this Special Issue is to understand knowledge and experiences about valuing ecosystem services provided by urban, peri-urban and forest systems, and by plantation and natural forests. We encourage the submission of studies from all scientific fields, to advance scientific knowledge and better public policy making and public awareness. We encourage studies at multiple levels as well as those considering spatiotemporal concerns. Interdisciplinary investigations are particularly welcome.

About the Journal

Message from the Editor-in-Chief

Forests (ISSN 1999-4907) is an international and cross-disciplinary, scholarly forestry journal. The distinguished editorial board and refereeing process ensures the highest degree of scientific rigor and review of all published articles. Original research articles and timely reviews are released online, with unlimited free access. Our goal is to have *Forests* be recognized as one of the foremost publication outlets for high quality, leading edge research in this broad and diverse field. We therefore invite you to be one of our authors, and in doing so share your important research findings with the global forestry community.

Editor-in-Chief

Prof. Dr. Giacomo Alessandro Gerosa

Department of Mathematics and Physics, Catholic University of Brescia,
I-25121 Brescia, Italy

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, GEOBASE, PubAg, AGRIS, PaperChem, and other databases.

Journal Rank:

JCR - Q2 (Forestry) / CiteScore - Q1 (Forestry)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 16.8 days after submission; acceptance to publication is undertaken in 2.5 days (median values for papers published in this journal in the second half of 2025).
