

Special Issue

The Performance of REDD+: From Global Governance to Local Practices

Message from the Guest Editors

This Special Issue invites submissions assessing the performance of REDD+. 'Performance' can however mean various things: 1. Economic (cost)effectiveness of policy measures; 2. Multi-criteria achievements (efficacy, legality, legitimacy, democracy, etc.); 3. Output, outcome and/or impact of policies; 4. The way success and failure are staged or 'performed' by stakeholders; and 5. The 'performativity' of REDD+, or how its conception enable or constrain certain ways of managing forests on the ground, and (dis)incentivizes certain kinds of behavior. We welcome all such contributions, which will probably imply a Special Issue with various approaches, methods and theories. But we aim for such a variety, to assess REDD+ from various angles, for example single and multi-case studies, large-N inventories and ethnographies, impact assessment and evaluation studies, both qualitative and quantitative, as well as various theories from economics, political sciences, public administration, development studies, anthropology and geography. Also, multi-level analyses (global-local, or local-global) are particularly invited.

Guest Editors

Prof. Dr. Bas Arts

Dr. Verina Ingram

Prof. Dr. Maria Brockhaus

About the Journal

Message from the Editor-in-Chief

Forests (ISSN 1999-4907) is an international and cross-disciplinary, scholarly forestry journal. The distinguished editorial board and refereeing process ensures the highest degree of scientific rigor and review of all published articles. Original research articles and timely reviews are released online, with unlimited free access. Our goal is to have *Forests* be recognized as one of the foremost publication outlets for high quality, leading edge research in this broad and diverse field. We therefore invite you to be one of our authors, and in doing so share your important research findings with the global forestry community.

Editor-in-Chief

Prof. Dr. Giacomo Alessandro Gerosa

Department of Mathematics and Physics, Catholic University of Brescia,

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, GEOBASE, PubAg, AGRIS, PaperChem, and other databases.

Journal Rank:

JCR - Q2 (Forestry) / CiteScore - Q1 (Forestry)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.1 days after submission; acceptance to publication is undertaken in 2.4 days (median values for papers published in this journal in the first half of 2025).
