

Special Issue

Systematic Methods and Techniques Applied to Forestry and Land Use Management

Message from the Guest Editors

Systematic reviews and systematic maps were introduced to forestry and related land use disciplines in 2013, through a collaborative project funded by the UK's Department for International Development, and led by the Center for International Forestry Research (CIFOR), in collaboration with five partner research institutions: the World Agroforestry Centre, the French Agricultural Research Centre for International Development, the Tropical Agricultural Research and Higher Education Center, the International Union of Forest Research Organizations, and the University of Oxford.

This Special Issue of *Forests* is focused on systematic approaches to evidence synthesis in the area of forest management, restoration, ecology, economics, genetics, engineering, bioenergy, soils, recreation, conservation, human dimensions of forests, urban forests, and related land use management. Studies can be systematic reviews, systematic maps, rapid reviews and other types of systematic evidence evaluation, supported by a detailed protocol. Cross-disciplinary and multi-disciplinary studies will be particularly welcomed.

Guest Editors

About the Journal

Message from the Editor-in-Chief

Forests (ISSN 1999-4907) is an international and cross-disciplinary, scholarly forestry journal. The distinguished editorial board and refereeing process ensures the highest degree of scientific rigor and review of all published articles. Original research articles and timely reviews are released online, with unlimited free access. Our goal is to have *Forests* be recognized as one of the foremost publication outlets for high quality, leading edge research in this broad and diverse field. We therefore invite you to be one of our authors, and in doing so share your important research findings with the global forestry community.

Editor-in-Chief

Prof. Dr. Giacomo Alessandro Gerosa

Department of Mathematics and Physics, Catholic University of Brescia,
I-25121 Brescia, Italy

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, GEOBASE, PubAg, AGRIS, PaperChem, and other databases.

Journal Rank:

JCR - Q2 (Forestry) / CiteScore - Q1 (Forestry)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.1 days after submission; acceptance to publication is undertaken in 2.4 days (median values for papers published in this journal in the first half of 2025).
