# What Role Can Ecological Factors Play in Supporting Ecosystem Services in Urban and Peri-Urban Forests?

### Message from the Guest Editor

Urban and peri-urban forests (UPFs) can play a pivotal role in supporting the quality of life in our cities. Several ecological factors, working synergistically with anthropocentric activities, influence the capacity of these forests in providing ecosystem services (ES). Different forestry patterns (e.g., stem diameter structure, leaf area index, basal area, soil quality) can affect the capacity of UPFs to provide ES from four categories (supporting services, provisioning services, regulating services and cultural services); at the same time, user perception of these factors is also important. This Special Issue aims to explore the state of the art in research on UPFs, focusing on the role of ecological factors.

## About the Journal

### Message from the Editor-in-Chief

*Forests* (ISSN 1999-4907) is an international and cross-disciplinary, scholarly forestry journal. The distinguished editorial board and refereeing process ensures the highest degree of scientific rigor and review of all published articles. Original research articles and timely reviews are released online, with unlimited free access. Our goal is to have *Forests* be recognized as one of the foremost publication outlets for high quality, leading edge research in this broad and diverse field. We therefore invite you to be one of our authors, and in doing so share your important research findings with the global forestry community.

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, GEOBASE, PubAg, AGRIS, PaperChem, and other databases.

#### Journal Rank:

JCR - Q2 (Forestry) / CiteScore - Q1 (Forestry)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.1 days after submission; acceptance to publication is undertaken in 2.4 days (median values for papers published in this journal in the first half of 2025).
