Special Issue

Water Resources Management and Modeling in Forestry

Message from the Guest Editor

Sustainable management of water and forest resources is critical to quality of life for current and future human communities as well as natural ecosystems. This is especially true in the face of changing land cover, increased pollution, continued fossil fuel consumption, and other resource exploitation. Integration of water resources and forestry at various spatial scales is imperative for future conservation and sustainability. To further explore these and other related issues, we encourage studies from all relevant fields, including experimental studies, monitoring approaches, and models. This Special Issue will highlight emerging work and strategies for the preservation, management, and future development of the water and forest nexus.

About the Journal

Message from the Editor-in-Chief

Forests (ISSN 1999-4907) is an international and cross-disciplinary, scholarly forestry journal. The distinguished editorial board and refereeing process ensures the highest degree of scientific rigor and review of all published articles. Original research articles and timely reviews are released online, with unlimited free access. Our goal is to have *Forests* be recognized as one of the foremost publication outlets for high quality, leading edge research in this broad and diverse field. We therefore invite you to be one of our authors, and in doing so share your important research findings with the global forestry community.

Editor-in-Chief

Prof. Dr. Giacomo Alessandro Gerosa
Department of Mathematics and Physics, Catholic University of Brescia, I-25121 Brescia, Italy

Author Benefits

High Visibility:
indexed within Scopus, SCIE (Web of Science), Ei Compendex, GEOBASE, PubAg, AGRIS, PaperChem, and other databases.

Journal Rank:
JCR - Q2 (Forestry) / CiteScore - Q1 (Forestry)

Rapid Publication:
manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.1 days after submission; acceptance to publication is undertaken in 2.4 days (median values for papers published in this journal in the first half of 2025).
