

Special Issue

Preservation, Protection, and Modification of Wood and Wood Byproducts

Message from the Guest Editors

This Special Issue of *Forests* aims to collect recent results from field experimental observations and laboratory studies at various sites around the world, as well as related meta-analysis and modeling studies, which would improve the valorization of wood and wood byproducts. We invite submissions for a special issue of *Forests* on the subject of “Preservation, Protection, and Modification of Wood and Wood Byproducts”. Topics for submissions may include but not be limited to:

Preservation of wood;

UV/VIS protection for wood;

Antifungal treatment for wood;

Paints, coatings, and pigments from or for wood;

Modification of forest lignocellulosic byproducts;

Extractives and biopolymers from wood;

Non-timber wood applications;

Forest biorefinery;

Fibers from wood and wood byproducts;

Wood recycling and reuse;

Fast-growing crops as wood alternatives.

About the Journal

Message from the Editor-in-Chief

Forests (ISSN 1999-4907) is an international and cross-disciplinary, scholarly forestry journal. The distinguished editorial board and refereeing process ensures the highest degree of scientific rigor and review of all published articles. Original research articles and timely reviews are released online, with unlimited free access. Our goal is to have *Forests* be recognized as one of the foremost publication outlets for high quality, leading edge research in this broad and diverse field. We therefore invite you to be one of our authors, and in doing so share your important research findings with the global forestry community.
