

Special Issue

Multifractal Phenomena in Turbulence

Message from the Guest Editor

This Special Issue will serve as a platform for presenting and critically comparing recent developments in the microscopic theory, phenomenological modeling, and experimental validation of turbulence, with a focus on multifractal phenomena. We aim to bring together leading experts across three complementary domains:

- Microscopic theory: Contributions will include recent advances such as the Euler ensemble and loop-equation-based exact solutions of decaying turbulence, which challenge conventional assumptions and offer a rigorous, first-principles approach.
- Phenomenological modeling: We invite proponents of multifractal models to present their formulations, summarize their predictive successes, and engage with new developments from a theoretical perspective.
- Experimental and numerical studies: The issue will feature input from leading groups performing high-resolution DNS and physical experiments, enabling data-driven validation and benchmarking of competing theoretical frameworks.

About the Journal

Message from the Editor-in-Chief

Fractal and Fractional (*Fractal Fract.*) is a scholarly online journal which provides a forum for discussion on new original models and methods in fractals and fractional calculus both from theory and applications. It is a peer-reviewed, open access journal that publishes high quality original research articles, review papers and short communications.

Editor-in-Chief

Prof. Dr. Carlo Cattani

Engineering School (DEIM), University of Tuscia, Largo dell'Università,
01100 Viterbo, Italy

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), Inspec, and other databases.

Journal Rank:

JCR - Q1 (Mathematics, Interdisciplinary Applications) /
CiteScore - Q1 (Analysis)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 19.9 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the first half of 2025).
