

Special Issue

Feature Papers for Mathematical Physics Section

Message from the Guest Editor

Science is a unique way to understand nature. In order to solve issues in the real world, engineers and experts conduct research to create new tools and determine the characteristics of scientific norms. Such scientific action is required by humanity to address everyday issues. The first phase of this process is to comprehend norms of mathematical physics. This makes it feasible to experience the power of science firsthand. This Special Issue is organized to publish high-quality papers in the journal *Fractal and Fractional*. We welcome submissions from Editorial Board Members and outstanding scholars invited by the Editorial Board and by the Editorial Office. The scope of this Special Issue includes, but is not limited to, all aspects of mathematical physics containing integers or fractional order operators.

About the Journal

Message from the Editor-in-Chief

Fractal and Fractional (*Fractal Fract.*) is a scholarly online journal which provides a forum for discussion on new original models and methods in fractals and fractional calculus both from theory and applications. It is a peer-reviewed, open access journal that publishes high quality original research articles, review papers and short communications.

Editor-in-Chief

Prof. Dr. Carlo Cattani

Engineering School (DEIM), University of Tuscia, Largo dell'Università,
01100 Viterbo, Italy

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), Inspec, and other databases.

Journal Rank:

JCR - Q1 (Mathematics, Interdisciplinary Applications) /
CiteScore - Q1 (Analysis)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 19.3 days after submission; acceptance to publication is undertaken in 2.8 days (median values for papers published in this journal in the second half of 2025).
