Special Issue

Fractional Order Modelling of Dynamical Systems

Message from the Guest Editor

This Special Issue aims to bring together cutting-edge research in the theory, analysis, numerical methods, and applications of fractional differential equations. We are particularly interested in innovative methodologies and modelling strategies that demonstrate the power of fractional calculus in capturing the dynamics of real-world systems, as well as interdisciplinary studies where fractional models provide new insights or improved results.

Guest Editor

About the Journal

Message from the Editor-in-Chief

Fractal and Fractional (*Fractal Fract.*) is a scholarly online journal which provides a forum for discussion on new original models and methods in fractals and fractional calculus both from theory and applications. It is a peer-reviewed, open access journal that publishes high quality original research articles, review papers and short communications.

Editor-in-Chief

Prof. Dr. Carlo Cattani
Engineering School (DEIM), University of Tuscia, Largo dell'Università, 01100 Viterbo, Italy

Author Benefits

High Visibility:
indexed within Scopus, SCIE (Web of Science), Inspec, and other databases.

Journal Rank:
JCR - Q1 (Mathematics, Interdisciplinary Applications) / CiteScore - Q1 (Analysis)

Rapid Publication:
manuscripts are peer-reviewed and a first decision is provided to authors approximately 19.9 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the first half of 2025).
