# **Special Issue**

## Advances in Nonlinear Differential Equations with Applications

#### Message from the Guest Editors

Nonlinear differential equations show important and strong abilities to govern enormous physical, biological, and engineering practical problems. Abundant solutions and the related localized structures of nonlinear differential equations play important roles in many applied sciences, including condensed matter physics, nonlinear optics, biology physics, hydrodynamics, and other fields. Therefore, the continued development of more advanced, effective methods to solve nonlinear differential equations is of paramount importance. This Special Issue, entitled "Advances in Nonlinear Differential Equations with Applications", aims to reflect the current state-of-the-art developments in all topics relevant to nonlinear differential equations and their applications in various applied sciences. We encourage all researchers working in areas of knowledge related to nonlinear differential equations to submit the details of their research. We hope this Special Issue will provide a comprehensive background for engineers, researchers, and experts in the field.,

## About the Journal

### Message from the Editor-in-Chief

*Fractal and Fractional (Fractal Fract.)* is a scholarly online journal which provides a forum for discussion on new original models and methods in fractals and fractional calculus both from theory and applications. It is a peerreviewed, open access journal that publishes high quality original research articles, review papers and short communications.

#### Editor-in-Chief

Prof. Dr. Carlo Cattani Engineering School (DEIM), University of Tuscia, Largo dell'Università, 01100 Viterbo, Italy

#### **Author Benefits**

#### **High Visibility:**

indexed within Scopus, SCIE (Web of Science), Inspec, and other databases.

#### Journal Rank:

JCR - Q1 (Mathematics, Interdisciplinary Applications) / CiteScore - Q1 (Analysis)

#### **Rapid Publication:**

manuscripts are peer-reviewed and a first decision is provided to authors approximately 19.9 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the first half of 2025).
