# Operators of Fractional Integration and Their Applications

# Message from the Guest Editors

Nowadays, it has been discovered that numerous types of fractional integral and derivative operators have been observed to be extremely significant and productive. This is because of their demonstrated applications. Many of these fractional operators offer intriguing, potentially helpful tools for solving integral and integrodifferential equations, as well as investigating optimal control the problem of fractional systems. On the other hand, differential and integral fractional equations have been solved successfully by calculating the fixed point for fractional integral operators. By bearing in mind that virtually many real-world problems may be transformed into problems of fractional differential and integral equations. So, we can reach a conclusion about the importance of the fractional integral operators together with fixed point theory in gualitative science and technology. In this Special Issue, we welcome contributions addressing the current developments in the theory of fractional integrals and derivatives, as well as their applications. :

# About the Journal

# Message from the Editor-in-Chief

*Fractal and Fractional (Fractal Fract.)* is a scholarly online journal which provides a forum for discussion on new original models and methods in fractals and fractional calculus both from theory and applications. It is a peerreviewed, open access journal that publishes high quality original research articles, review papers and short communications.

# Editor-in-Chief

Prof. Dr. Carlo Cattani Engineering School (DEIM), University of Tuscia, Largo dell'Università, 01100 Viterbo, Italy

# **Author Benefits**

# **High Visibility:**

indexed within Scopus, SCIE (Web of Science), Inspec, and other databases.

# Journal Rank:

JCR - Q1 (Mathematics, Interdisciplinary Applications) / CiteScore - Q1 (Analysis)

# **Rapid Publication:**

manuscripts are peer-reviewed and a first decision is provided to authors approximately 19.9 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the first half of 2025).
