### Investigation and Application of Fractals in Civil Engineering Materials

### Message from the Guest Editors

In this Special Issue, "Investigation and Application of Fractals in Civil Engineering Materials", we would like to solicit your innovative ideas and work on the investigation and application of fractals in civil engineering materials. We encourage you to submit your original articles related to civil engineering and construction materials. In addition, your study could focus on any aspect of the civil engineering materials, their properties, cost analysis, life cycle assessment, experimental and theoretical verifications, etc. The purpose of this Special Issue is to promote the deeper and wider investigation and application of fractal theory in the fields of civil engineering materials. The submitted manuscripts will be peer reviewed, and those accepted will be published in the open-access journal Fractal and Fractional.

### About the Journal

### Message from the Editor-in-Chief

*Fractal and Fractional (Fractal Fract.)* is a scholarly online journal which provides a forum for discussion on new original models and methods in fractals and fractional calculus both from theory and applications. It is a peerreviewed, open access journal that publishes high quality original research articles, review papers and short communications.

### **Author Benefits**

### **High Visibility:**

indexed within Scopus, SCIE (Web of Science), Inspec, and other databases.

### Journal Rank:

JCR - Q1 (Mathematics, Interdisciplinary Applications) / CiteScore - Q1 (Analysis)

### **Rapid Publication:**

manuscripts are peer-reviewed and a first decision is provided to authors approximately 19.9 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the first half of 2025).
