

Special Issue

Sustainable Jet Fuels from Bio-Based Resources

Message from the Guest Editor

The journal "*Fuels*" is pleased to announce a new Special Issue titled "Sustainable Jet Fuels from Bio-Based Resources". I am the of this Special Issue, which will cover all areas related to renewable aviation fuels, including lignocellulosic biomass-, vegetable oil-, algae- and food waste-based sustainable aviation biofuels, as well as their preparation, analysis, testing and economic evaluation. Additional expertise could enrich our Special Issue and fit within its scope, so we are offering researchers the opportunity to submit a manuscript. If you are interested in submitting a manuscript, please send us an abstract, and we would be pleased to discuss the proposed paper with you.

Guest Editor

Prof. Dr. Ananda S. Amarasekara
Department of Chemistry, Prairie View A and M University, 700
University Drive, Prairie View, TX 77446, USA

Deadline for manuscript submissions

15 July 2026
