

Innovative People-Centered Solutions Applied to Industries, Cities and Societies

Collection Editors:

Prof. Dr. Dino Giuli

Department of Information
Engineering (DINFO), University
of Florence, Via Santa Marta, 3,
50139 Florence, Italy

Dr. Filipe Portela

1. Algoritmi Research Centre,
University of Minho, 4800-058
Guimarães, Portugal
2. IOTECH—Innovation on
Technology, 4785-588 Trofa,
Portugal

Message from the Collection Editors

In order to contribute to addressing this paradigm, this Topical Collection intends to collect the current developments and future directions of people-centered solutions applied to industry. Hence, we encourage authors to submit original papers related to these fields and disseminate their knowledge to society. All the articles must be people-centered and/or focus on industry.

Potential topics include, but are not limited to:

- Internet of Things
- Progressive web app
- Pervasive and cloud computing
- Bring Your Own Device (BYOD) solutions
- Artificial intelligence and machine learning
- Web/mobile solutions
- Big data, open data and analytical tools
- Smart cities
- Wellbeing solutions
- Smart solutions
- Augmented reality
- System interoperability
- Blockchain
- System and applications security
- Industry 4.0

an Open Access Journal by MDPI

Editor-in-Chief

Prof. Dr. Gianluigi Ferrari

Department of Engineering and
Architecture, University of Parma,
Parco Area delle Scienze, 181/A,
43124 Parma, Italy

Message from the Editor-in-Chief

Future Internet is a fast-growing journal devoted to rapid publications of the latest results in the general areas of computer networking/communications and information systems, with a focus on the Internet of Things, big data and augmented intelligence, smart systems (in terms of technologies, architectures, and applications), network virtualization, edge/fog computing, and cybersecurity. Both theoretical and experimental papers are welcome. Every year, *Future Internet* also features Special Issues dedicated to specific topics within the journal's scope.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, ESCI (Web of Science), Ei Compendex, dblp, Inspec, and other databases.

Journal Rank: JCR - Q2 (Computer Science, Information Systems) / CiteScore - Q1 (Computer Networks and Communications)
