Deadline for manuscript  
submissions:

**30 June 2023**

### Message from the Guest Editors

This Special Issue intends to solicit high-quality papers detailing mobile Internet security. These papers should converge on resolving open problems and challenges typical of mobile Internet security, introducing and combining innovative methods efficiently, and presenting the evaluation of performance with existing approaches. Both theoretical and experimental studies are approved. Furthermore, high-quality review papers are also welcomed.

- security in the mobile IoT
- security in mobile communications and computing
- security in vehicular communications
- artificial intelligence and machine learning techniques dealing with security in mobile communications and computing

## Editor-in-Chief

### Prof. Dr. Dino Giuli

Department of Information  
Engineering (DINFO), University  
of Florence, Via Santa Marta, 3,  
50139 Florence, Italy

## Message from the Editor-in-Chief

You are invited to contribute a research article or a comprehensive review for consideration and publication in *Future Internet* (ISSN 1999-5903). *Future Internet* is an international, peer-reviewed, open access journal, which provides an advanced forum for scientific studies related to Internet technologies and the information society.

*Future Internet* is published in open access format – research articles, reviews and other contents are released on the Internet immediately after acceptance. The scientific community and the public have unlimited and free access to the content as soon as it is published.

We would be pleased to welcome you as one of our authors.

## Author Benefits

**Open Access:**— free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, ESCI (Web of Science), Ei Compindex, dblp, Inspec, and other databases.

**Journal Rank:** CiteScore - Q2 (*Computer Networks and Communications*)
