

Multi-Clouds and Edge Computing

Guest Editors:

Dr. Yiannis Verginadis

Dr. Geir Horn

Prof. Dr. Tamas Kiss

Dr. Dimitrios Kardaras

Deadline for manuscript
submissions:

closed (31 December 2021)

Message from the Guest Editors

The aim of this Special Issue is to gather the most recent innovations in cloud management platforms that support hybrid, multi-cloud and edge deployments to cope with the ever increasing challenges of the cloud computing continuum. Potential topics include, but are not limited to:

- Design and implementation of multi-cloud management platforms
- Applications and algorithms for big data and mobile edge computing multi-clouds
- Ontologies and languages for multi-cloud application modelling
- Advanced monitoring, event management systems and data lifecycle management in heterogeneous cloud and edge environments
- Cloud computing service selection models
- Optimization of distributed cloud computing (infrastructure and applications)
- Cloud and edge computing for streamed data and real-time control (processing or distribution)
- AI for scalability and QoS for multi-cloud big data applications
- Hybrid-Cloud High Performance Computing (HPC) applications

an Open Access Journal by MDPI

Editor-in-Chief

Message from the Editor-in-Chief

Future Internet is a fast-growing journal devoted to rapid publications of the latest results in the general areas of computer networking/communications and information systems, with a focus on the Internet of Things, big data and augmented intelligence, smart systems (in terms of technologies, architectures, and applications), network virtualization, edge/fog computing, and cybersecurity. Both theoretical and experimental papers are welcome. Every year, *Future Internet* also features Special Issues dedicated to specific topics within the journal's scope.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, ESCI (Web of Science), Ei Compendex, dblp, Inspec, and other databases.

Journal Rank: JCR - Q2 (Computer Science, Information Systems) / CiteScore - Q1 (Computer Networks and Communications)
