

*future internet*

an Open Access Journal by MDPI

## New Developments in RFID Technologies and Applications and Their Integration into IoT

Guest Editor:

### Message from the Guest Editor

**Prof. Dr. Raed A. Abd-Alhameed**

Faculty of Engineering and  
Informatics, University of  
Bradford, Bradford BD7 1DP, UK

Deadline for manuscript  
submissions:

**closed (31 December 2018)**

RFID, though widely accepted as an exciting technology, presents several significant design challenges and issues to engineers and researchers. These issues arise from the context-aware processing of RFID data, achieving efficient matching and read range, developing novel smart IoT-based applications, achieving smart and human interaction, and privacy and security issue of RFID data within the IoT context.

# Special Issue

an Open Access Journal by MDPI

## Editor-in-Chief

### **Prof. Dr. Gianluigi Ferrari**

Department of Engineering and  
Architecture, University of Parma,  
Parco Area delle Scienze, 181/A,  
43124 Parma, Italy

## Message from the Editor-in-Chief

*Future Internet* is a fast-growing journal devoted to rapid publications of the latest results in the general areas of computer networking/communications and information systems, with a focus on the Internet of Things, big data and augmented intelligence, smart systems (in terms of technologies, architectures, and applications), network virtualization, edge/fog computing, and cybersecurity. Both theoretical and experimental papers are welcome. Every year, *Future Internet* also features Special Issues dedicated to specific topics within the journal's scope.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, ESCI (Web of Science), Ei Compendex, dblp, Inspec, and other databases.

**Journal Rank:** CiteScore - Q1 (*Computer Networks and Communications*)
