

Special Issue

10th Anniversary Feature Papers

Message from the Guest Editor

The proposed subject of this Special Issue is “Smart Systems and Smart Living”. Basic topics are human and social factors (also including environmental ones), all related to smart systems and their applications as increasingly impacting quality of life. A focus is jointly promoted on Internet-of-Things and cyber-physical systems, specifically their impact on quality of life in Smart City contexts.

About the Journal

Message from the Editor-in-Chief

Future Internet is a fast-growing journal devoted to rapid publications of the latest results in the general areas of computer networking/communications and information systems, with a focus on the Internet of Things, big data and augmented intelligence, smart systems (in terms of technologies, architectures, and applications), network virtualization, edge/fog computing, and cybersecurity. Both theoretical and experimental papers are welcome. Every year, *Future Internet* also features Special Issues dedicated to specific topics within the journal's scope.
