

Special Issue

eHealth and mHealth

Message from the Guest Editors

eHealth, or Electronic Health, signifies the utilization of information and communication technologies (ICTs) to fortify and elevate health and healthcare. Moreover, mHealth, or Mobile Health, is the strategic use of mobile devices, including smartphones, tablets, wearables, and wireless technologies. They contribute synergistically to the ongoing digitization and advancement of the healthcare landscape, marking a pivotal era of innovation and enhanced patient-centric care. Topics include, but are not limited to, the following:

- Usability and user experience in health apps;
- Effectiveness of mobile health interventions;
- Data security and privacy in eHealth;
- Integration of wearables and IoT in healthcare;
- Machine learning and predictive analytics in eHealth;
- Telemedicine and remote patient monitoring;
- Behavioral interventions through mobile apps;
- Ethical considerations in eHealth and mHealth;
- Human-centered design for health technologies.

About the Journal

Message from the Editor-in-Chief

Future Internet is a fast-growing journal devoted to rapid publications of the latest results in the general areas of computer networking/communications and information systems, with a focus on the Internet of Things, big data and augmented intelligence, smart systems (in terms of technologies, architectures, and applications), network virtualization, edge/fog computing, and cybersecurity. Both theoretical and experimental papers are welcome. Every year, *Future Internet* also features Special Issues dedicated to specific topics within the journal's scope.

Editor-in-Chief

Prof. Dr. Gianluigi Ferrari
Department of Engineering and Architecture, University of Parma,
Parco Area delle Scienze, 181/A, 43124 Parma, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, ESCI (Web of Science), Ei Compendex, dblp, Inspec, and other databases.

Journal Rank:

JCR - Q2 (Computer Science, Information Systems) /
CiteScore - Q1 (Computer Networks and Communications)
