

Special Issue

ICT and AI in Intelligent E-Systems—2nd Edition

Message from the Guest Editors

AI is currently considered the most important innovative development in the field of ICT. We invite researchers, academicians, and practitioners to contribute to this Special Issue focused on ICT and AI in intelligent E-systems. This Special Issue aims to explore the successes, lessons learned, and innovative paradigms related to using ICT and AI in intelligent E-systems. We welcome the submission of original research papers, case studies, and review articles. Topics of interest for this Special Issue include, but are not limited to, the following:

- State-of-the-art ICT and AI integration with intelligent E-systems;
- ICT and AI-powered Intelligent E-systems in Industry 4.0/5.0;
- Case studies that highlight successful ICT and AI integration in intelligent E-systems;
- The challenges encountered in adopting ICT and AI integration in intelligent E-systems and the lessons derived from those challenges;
- Innovative approaches and paradigms in ICT and AI integration in intelligent E-systems;
- Explorations of the influence of ICT and AI integration on intelligent E-systems in businesses.

Guest Editors

Prof. Dr. Ergun Gide

School of Engineering and Technology, Central Queensland University,
Sydney, NSW 2000, Australia

Dr. Robert M. X. Wu

School of Professional Practice and Leadership, University of
Technology Sydney, Ultimo, NSW 2007, Australia

Deadline for manuscript submissions

20 July 2026

About the Journal

Message from the Editor-in-Chief

Future Internet is a fast-growing journal devoted to rapid publications of the latest results in the general areas of computer networking/communications and information systems, with a focus on the Internet of Things, big data and augmented intelligence, smart systems (in terms of technologies, architectures, and applications), network virtualization, edge/fog computing, and cybersecurity. Both theoretical and experimental papers are welcome. Every year, *Future Internet* also features Special Issues dedicated to specific topics within the journal's scope.

Editor-in-Chief

Prof. Dr. Gianluigi Ferrari
Department of Engineering and Architecture, University of Parma,
Parco Area delle Scienze, 181/A, 43124 Parma, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, ESCI (Web of Science), Ei Compendex, dblp, Inspec, and other databases.

Journal Rank:

JCR - Q2 (Computer Science, Information Systems) /
CiteScore - Q1 (Computer Networks and Communications)
