

Special Issue

Human-Centered Artificial Intelligence

Message from the Guest Editors

We are pleased to announce a Special Issue of Future Internet entitled “Human-Centred Artificial Intelligence”. As AI continues to be integrated into various facets of our lives, from healthcare and education to transportation and entertainment, it is crucial that these systems are developed with a human-centric approach. Human-Centred Artificial Intelligence (HCAI) strives to create AI technologies that are innovative, efficient, responsible, and beneficial to society.

We invite submissions of original research papers, review articles, and short communications to this Special Issue to highlight cutting-edge research and innovative approaches that contribute to the advancement of HCAI. We welcome submissions on a broad range of topics within HCAI, including, but not limited to, the following:

- Explainable AI (XAI).
- Human-AI collaboration.
- User-centered design for AI.
- AI and accessibility.
- Human factors in AI.
- Human-robot interaction (HRI).
- Adaptive learning systems.

Guest Editors

Dr. Rui Yu

Dr. Sooyeon Lee

Dr. Syed Masum Billah

Dr. John M. Carroll

Deadline for manuscript submissions

28 February 2026

About the Journal

Message from the Editor-in-Chief

Future Internet is a fast-growing journal devoted to rapid publications of the latest results in the general areas of computer networking/communications and information systems, with a focus on the Internet of Things, big data and augmented intelligence, smart systems (in terms of technologies, architectures, and applications), network virtualization, edge/fog computing, and cybersecurity. Both theoretical and experimental papers are welcome. Every year, *Future Internet* also features Special Issues dedicated to specific topics within the journal's scope.

Editor-in-Chief

Prof. Dr. Gianluigi Ferrari
Department of Engineering and Architecture, University of Parma,
Parco Area delle Scienze, 181/A, 43124 Parma, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, ESCI (Web of Science), Ei Compendex, dblp, Inspec, and other databases.

Journal Rank:

JCR - Q2 (Computer Science, Information Systems) /
CiteScore - Q1 (Computer Networks and Communications)
