

Special Issue

Artificial Intelligence: Innovation, Applications and Transformative Experiences

Message from the Guest Editors

This Special Issue will delve into practical applications of AI, highlighting success stories that have transformed the way organizations operate and create value. Potential topics include, but are not limited to, the following:

- Artificial intelligence;
- Technological innovation;
- Machine learning;
- Neural networks;
- Big Data;
- Automation;
- Natural language processing;
- Computer vision;
- Robotics;
- Predictive analytics;
- Business intelligence;
- Expert systems;
- User experiences;
- Digital transformation;
- Industrial applications;
- Generative models;
- Emerging technology;
- Intelligent solutions.

About the Journal

Message from the Editor-in-Chief

Future Internet is a fast-growing journal devoted to rapid publications of the latest results in the general areas of computer networking/communications and information systems, with a focus on the Internet of Things, big data and augmented intelligence, smart systems (in terms of technologies, architectures, and applications), network virtualization, edge/fog computing, and cybersecurity. Both theoretical and experimental papers are welcome. Every year, *Future Internet* also features Special Issues dedicated to specific topics within the journal's scope.

Editor-in-Chief

Prof. Dr. Gianluigi Ferrari
Department of Engineering and Architecture, University of Parma,
Parco Area delle Scienze, 181/A, 43124 Parma, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, ESCI (Web of Science), Ei Compendex, dblp, Inspec, and other databases.

Journal Rank:

JCR - Q2 (Computer Science, Information Systems) /
CiteScore - Q1 (Computer Networks and Communications)
