

# Special Issue

## Advances and Perspectives in Human-Computer Interaction

### Message from the Guest Editors

This Special Issue is soliciting original research papers as well as review articles and short communications in specific relevant areas. The topics of interest include, but are not limited to, the following:

- HCI design and paradigms
- Tangible user interfaces
- Adaptive user interfaces
- Extended reality interfaces and systems
- Usability and user experience evaluation
- User-centered and intelligent systems
- Mobile and ubiquitous computing systems

## About the Journal

### Message from the Editor-in-Chief

*Future Internet* is a fast-growing journal devoted to rapid publications of the latest results in the general areas of computer networking/communications and information systems, with a focus on the Internet of Things, big data and augmented intelligence, smart systems (in terms of technologies, architectures, and applications), network virtualization, edge/fog computing, and cybersecurity. Both theoretical and experimental papers are welcome. Every year, *Future Internet* also features Special Issues dedicated to specific topics within the journal's scope.
