Special Issue

Advances in Wireless and Mobile Networking—2nd Edition

Message from the Guest Editors

This Special Issue represents a discussion forum for researchers, professionals, and students interested in novel developments in mobile and wireless networks, services, and applications and mobile computing. The main topics of interest include (but are not limited to) the following:

- Wireless and mobile communications and networks;
- Wireless technologies design and evaluation;
- Handoff, location, and resource management;
- Network and service management and control;
- Cognitive radio and Massive MIMO networking;
- Network security solutions and protocols;
- Traffic and network modeling;
- Software-defined wireless networking;
- Wireless Sensor and Actuator Networks;
- Low-power wide area networks;
- Vehicular cyber–physical networks ;
- Communication technologies for the IoT;
- Ad hoc networking, positioning localization and tracking;
- Mobile cloud computing and applications;
- Multi-access edge computing;
- Multicasting and broadcasting issues;
- Intelligent transportation systems;
- Content management and distribution;
- ML/AI for network management;

Guest Editors

Dr. Eirini Eleni Tsiropoulou

School of Electrical, Computer and Energy Engineering, Arizona State University, Tempe, AZ 85281, USA

Prof. Diala Naboulsi

Department of Software Engineering and Information Technology, École de Technologie Supérieure, Montreal, QC H3C 1K3, Canada

Deadline for manuscript submissions

10 April 2026

Future Internet

About the Journal

Message from the Editor-in-Chief

Future Internet is a fast-growing journal devoted to rapid publications of the latest results in the general areas of computer networking/communications and information systems, with a focus on the Internet of Things, big data and augmented intelligence, smart systems (in terms of technologies, architectures, and applications), network virtualization, edge/fog computing, and cybersecurity. Both theoretical and experimental papers are welcome. Every year, *Future Internet* also features Special Issues dedicated to specific topics within the journal's scope.

Editor-in-Chief

Prof. Dr. Gianluigi Ferrari
Department of Engineering and Architecture, University of Parma, Parco Area delle Scienze, 181/A, 43124 Parma, Italy

Author Benefits

Open Access:
free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:
indexed within Scopus, ESCI (Web of Science), Ei Compendex, dblp, Inspec, and other databases.

Journal Rank:
JCR - Q2 (Computer Science, Information Systems) / CiteScore - Q1 (Computer Networks and Communications)
