Special Issue

Distributing Computing in Internet of Things

Message from the Guest Editor

The emergence of the Internet of Things (IoT) and Robotic of Things (RoT) have posed diverse new research challenges and opportunities among distributed computing, high-performance wireless networks, AI, chips, and software systems. This Special Issue of Distributing Computing in Internet of Things in the Future Internet journal will serve as a versatile venue for researchers and industries to present their latest and interesting innovations as well as theories in these relevant areas. Look forward to your submissions.

Guest Editor

Dr. Heming Cui

Department of Computer Science, The University of Hong Kong, Pokfulam, Hong Kong

Deadline for manuscript submissions

closed (31 January 2024)

About the Journal

Message from the Editor-in-Chief

Future Internet is a fast-growing journal devoted to rapid publications of the latest results in the general areas of computer networking/communications and information systems, with a focus on the Internet of Things, big data and augmented intelligence, smart systems (in terms of technologies, architectures, and applications), network virtualization, edge/fog computing, and cybersecurity. Both theoretical and experimental papers are welcome. Every year, *Future Internet* also features Special Issues dedicated to specific topics within the journal's scope.

Editor-in-Chief

Prof. Dr. Gianluigi Ferrari
Department of Engineering and Architecture, University of Parma,
Parco Area delle Scienze, 181/A, 43124 Parma, Italy

Author Benefits

Open Access:
free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:
indexed within Scopus, ESCI (Web of Science), Ei Compendex, dblp, Inspec, and other databases.

Journal Rank:
JCR - Q2 (Computer Science, Information Systems) / CiteScore - Q1 (Computer Networks and Communications)
