

# Special Issue

## Selected Papers from IEEE ICICT 2019

### Message from the Guest Editors

The International Conference on Information and Computer Technologies brings together researchers from different scientific communities working on areas related to information and computer technologies. The variety of scientific topics ranges from computer networks, computing practices and applications, data mining, image processing, pattern recognition, bioinformatics and scientific computing, and wireless communication, to mobile computing. For the 2nd edition of this annual event, more than 100 contributions have been received from 15 countries around the world. The papers invited for submission to this Special Issue are technically beyond the scope of the contributions appearing in the conference proceedings and include significantly new research. They reflect the latest problems, advances, and diversity within the complex network community.

### Guest Editors

Prof. Dr. Anu Gokhale

Illinois State University, Chicago, United States

Prof. Dr. Symeon Papavassiliou

School of Electrical and Computer Engineering, National Technical University of Athens, Iroon Polytechniou 9, 15780 Athens, Greece

Dr. Eirini Eleni Tsiropoulou

School of Electrical, Computer and Energy Engineering, Arizona State University, Tempe, AZ 85281, USA

### Deadline for manuscript submissions

closed (10 June 2019)

## About the Journal

### Message from the Editor-in-Chief

*Future Internet* is a fast-growing journal devoted to rapid publications of the latest results in the general areas of computer networking/communications and information systems, with a focus on the Internet of Things, big data and augmented intelligence, smart systems (in terms of technologies, architectures, and applications), network virtualization, edge/fog computing, and cybersecurity. Both theoretical and experimental papers are welcome. Every year, *Future Internet* also features Special Issues dedicated to specific topics within the journal's scope.

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, ESCI (Web of Science), Ei Compendex, dblp, Inspec, and other databases.

#### Journal Rank:

JCR - Q2 (Computer Science, Information Systems) /  
CiteScore - Q1 (Computer Networks and Communications)
