

## Special Issue

# Selected papers from INTESA Workshop 2018

### Message from the Guest Editors

We have organized a Special Issue of the INTESA workshop 2018 in *Future Internet*. The main purpose of this Special Issue is to publish extended versions of the INTESA2018 papers. The papers from the attendees at Embedded Systems Week are also welcome. Such papers will be expected to make significant contributions to key areas, from architectures and design methodologies to support embedded intelligence to embedded intelligence: Best practices and software support.

## About the Journal

### Message from the Editor-in-Chief

*Future Internet* is a fast-growing journal devoted to rapid publications of the latest results in the general areas of computer networking/communications and information systems, with a focus on the Internet of Things, big data and augmented intelligence, smart systems (in terms of technologies, architectures, and applications), network virtualization, edge/fog computing, and cybersecurity. Both theoretical and experimental papers are welcome. Every year, *Future Internet* also features Special Issues dedicated to specific topics within the journal's scope.
