

Special Issue

Information Processing and Management for Large and Complex Networks

Message from the Guest Editors

This special issue calls for papers that contribute to the multifaceted research on processing, managing, and analyzing large and complex networks. Interested authors are invited to contribute their original, unpublished work. Topics of interest include, but are not limited to, the following:

- Management information systems
- Big network data management
- Large-scale graph processing algorithms and systems
- Parallel and distributed graph algorithms
- Strategic information systems
- Decision support systems
- Graph drawing and network visualization techniques
- Human-computer interaction for network analysis
- Graph benchmarks and generators

Guest Editors

Dr. Fabrizio Montecchiani

Prof. Dr. Walter Didimo

Dr. Andrea Fronzetti Colladon

Deadline for manuscript submissions

closed (30 November 2021)

About the Journal

Message from the Editor-in-Chief

Future Internet is a fast-growing journal devoted to rapid publications of the latest results in the general areas of computer networking/communications and information systems, with a focus on the Internet of Things, big data and augmented intelligence, smart systems (in terms of technologies, architectures, and applications), network virtualization, edge/fog computing, and cybersecurity. Both theoretical and experimental papers are welcome. Every year, *Future Internet* also features Special Issues dedicated to specific topics within the journal's scope.

Editor-in-Chief

Prof. Dr. Gianluigi Ferrari
Department of Engineering and Architecture, University of Parma,
Parco Area delle Scienze, 181/A, 43124 Parma, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, ESCI (Web of Science), Ei Compendex, dblp, Inspec, and other databases.

Journal Rank:

JCR - Q2 (Computer Science, Information Systems) /
CiteScore - Q1 (Computer Networks and Communications)
