

## Special Issue

# IoT-Edge-Cloud Computing and Decentralized Applications for Smart Cities

### Message from the Guest Editors

We invite researchers and practitioners from academia and industry to contribute original research articles and review papers to the special issue: Topics of interest include, but are not limited to, the following:

- IoT-enabled sensing and monitoring systems for smart cities;
- Edge computing architectures and platforms for smart city applications;
- Cloud-based infrastructure and services for smart city deployment;
- Decentralized and distributed systems for smart city data management and processing;
- Reliability and fault tolerance for large-scale IoT infrastructures;
- Security, privacy, and trust issues in IoT-edge-cloud ecosystems for smart cities;
- AI and machine learning techniques for data analytics in smart city environments
- Swarm intelligence and robotics for innovative smart city applications;
- Blockchain and distributed ledger technologies for decentralized smart city applications;
- Integration of IoT, edge, and cloud technologies in urban mobility and transportation systems;

---

### Guest Editors

Dr. Antonis Litke

Dr. Rodger Lea

Dr. Takuro Yonezawa

---

### Deadline for manuscript submissions

30 October 2025

## About the Journal

### Message from the Editor-in-Chief

*Future Internet* is a fast-growing journal devoted to rapid publications of the latest results in the general areas of computer networking/communications and information systems, with a focus on the Internet of Things, big data and augmented intelligence, smart systems (in terms of technologies, architectures, and applications), network virtualization, edge/fog computing, and cybersecurity. Both theoretical and experimental papers are welcome. Every year, *Future Internet* also features Special Issues dedicated to specific topics within the journal's scope.

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, ESCI (Web of Science), Ei Compendex, dblp, Inspec, and other databases.

#### Journal Rank:

JCR - Q2 (Computer Science, Information Systems) /  
CiteScore - Q1 (Computer Networks and Communications)
