Special Issue

Secure Communication Protocols for Future Computing

Message from the Guest Editors

We encourage the submission of articles exhibiting original work concerning topics related to:

- 5G and 6G heterogeneous computing and communication systems
- AI-enabled IoT systems and applications
- Ambient assisted living systems
- Cryptographic algorithms and protocols
- Communication protocols for blockchain
- Communication protocols in pervasive and ubiquitous environments
- Communications in the Internet of Things
- Communications in DevOps environments
- Communication systems
- Communications in scenarios for assistance and support of social, industrial and recreational scenarios
- Communication and network protocols
- Communication systems in smart cities
- Data privacy in communication
- IoT solutions and protocols
- Mobile edge computing
- Machine-to-machine communications
- Protocols and communications in the context of machine learning
- Resource optimization for IoT Systems
- Security and privacy in mobile devices and the cloud
- Vehicular communication and network systems

Guest Editors

Prof. Dr. Valderi R. Q. Leithardt
Dr. Paul Crocker
Dr. Raúl García Ovejero

Deadline for manuscript submissions

closed (31 December 2024)

About the Journal

Message from the Editor-in-Chief

Future Internet is a fast-growing journal devoted to rapid publications of the latest results in the general areas of computer networking/communications and information systems, with a focus on the Internet of Things, big data and augmented intelligence, smart systems (in terms of technologies, architectures, and applications), network virtualization, edge/fog computing, and cybersecurity. Both theoretical and experimental papers are welcome. Every year, *Future Internet* also features Special Issues dedicated to specific topics within the journal's scope.

Editor-in-Chief

Prof. Dr. Gianluigi Ferrari
Department of Engineering and Architecture, University of Parma,
Parco Area delle Scienze, 181/A, 43124 Parma, Italy

Author Benefits

Open Access:
free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:
indexed within Scopus, ESCI (Web of Science), Ei Compendex, dblp, Inspec, and other databases.

Journal Rank:
JCR - Q2 (Computer Science, Information Systems) / CiteScore - Q1 (Computer Networks and Communications)
