Special Issue

Smart Technology: Artificial Intelligence, Robotics and Algorithms

Message from the Guest Editors

In recent years, artificial intelligence (AI) and robotics have made significant strides. Various AI and robotics algorithms have been applied across different disciplines, achieving remarkable results. While the interdisciplinary integration of different fields presents new opportunities for the advancement of AI and robotics, it also introduces unique challenges due to the specialized knowledge required in these intersecting domains. This Special Issue aims to collect new manuscripts focusing on the applications of AI and robotics in diverse fields such as wireless communications, precision agriculture, etc. The manuscripts may propose new foundational algorithms or entirely new applications. The ultimate goal of this Special Issue is to promote the implementation of AI and robotics technologies across different sectors.

About the Journal

Message from the Editor-in-Chief

Future Internet is a fast-growing journal devoted to rapid publications of the latest results in the general areas of computer networking/communications and information systems, with a focus on the Internet of Things, big data and augmented intelligence, smart systems (in terms of technologies, architectures, and applications), network virtualization, edge/fog computing, and cybersecurity. Both theoretical and experimental papers are welcome. Every year, *Future Internet* also features Special Issues dedicated to specific topics within the journal's scope.

Editor-in-Chief

Prof. Dr. Gianluigi Ferrari
Department of Engineering and Architecture, University of Parma,
Parco Area delle Scienze, 181/A, 43124 Parma, Italy

Author Benefits

Open Access:
free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:
indexed within Scopus, ESCI (Web of Science), Ei Compendex, dblp, Inspec, and other databases.

Journal Rank:
JCR - Q2 (Computer Science, Information Systems) / CiteScore - Q1 (Computer Networks and Communications)
