Engaging in Interaction with Robots

Message from the Guest Editors

Human–robot Interaction (HRI) is a field of research that has reached maturity in the last decade, with a huge amount of studies that have attracted the interest of a multidisciplinary community of scientists and practitioners from engineers to psychologists, sociologists, designers, and scholars of ethics, just to quote a non-exhaustive list.

About the Journal

Message from the Editor-in-Chief

Future Internet is a fast-growing journal devoted to rapid publications of the latest results in the general areas of computer networking/communications and information systems, with a focus on the Internet of Things, big data and augmented intelligence, smart systems (in terms of technologies, architectures, and applications), network virtualization, edge/fog computing, and cybersecurity. Both theoretical and experimental papers are welcome. Every year, *Future Internet* also features Special Issues dedicated to specific topics within the journal's scope.
