

Special Issue

Trends and Opportunities in Online Education

Message from the Guest Editors

Education without technology is nearly impossible these days. Moreover, the future of teaching and learning is becoming more and more digitalized. Therefore, we would like to invite you to contribute to a call for papers asking for contributions on “trends and opportunities in online education”. We are searching for innovative examples, and emerging trends in teaching and learning with technologies and visions. We would also be very happy if you can spread the call amongst further interested possible contributors. Please find here more details on the CfP:

About the Journal

Message from the Editor-in-Chief

Future Internet is a fast-growing journal devoted to rapid publications of the latest results in the general areas of computer networking/communications and information systems, with a focus on the Internet of Things, big data and augmented intelligence, smart systems (in terms of technologies, architectures, and applications), network virtualization, edge/fog computing, and cybersecurity. Both theoretical and experimental papers are welcome. Every year, *Future Internet* also features Special Issues dedicated to specific topics within the journal's scope.

Editor-in-Chief

Prof. Dr. Gianluigi Ferrari
Department of Engineering and Architecture, University of Parma,
Parco Area delle Scienze, 181/A, 43124 Parma, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, ESCI (Web of Science), Ei Compendex, dblp, Inspec, and other databases.

Journal Rank:

JCR - Q2 (Computer Science, Information Systems) /
CiteScore - Q1 (Computer Networks and Communications)
