Message from the Guest Editor

Dear Colleagues,

Galaxies is hosting a Special Issue on Jet Physics of Accreting SMBH. The aim of this Special Issue is to bring together observational astronomers working across the electromagnetic spectrum with theorists in order to investigate our understanding of the jet physics in SMBH.

With this Special Issue, we invite researchers to submit review papers in which the current status of observational, theoretical and numerical studies applied to relativistic jets in AGN is discussed. It will serve also as a common basis for future studies and prospects for observations with next-generation instruments.

Sincerely
Dr. Filippo D'Ammando
Guest Editor

Message from the Editorial Board

Galaxies provides an advanced forum for studies related to astronomy, astrophysics, and cosmology, including all of their subfields. Different formats, such as specialized research articles, reviews, communications and technical notes are welcomed. Manuscripts containing original and creative research proposals and ideas are especially appreciated.

We encourage scientists to publish their astronomical observations and theoretical results in as much detail as possible. There is no restriction on the paper length and full experimental and methodological details, as applicable, should be provided. All papers will be peer reviewed promptly. On behalf of the distinguished members of the editorial board, I extend my welcome to all researchers working on these subjects to contribute to *Galaxies*.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.
High Visibility: indexed within Scopus, ESCI (Web of Science), Astrophysics Data System, INSPIRE, Inspec, and other databases.
Journal Rank: CiteScore - Q2 (*Astronomy and Astrophysics*)
