

## Physical Origin and Observation Properties of Fast Radio Bursts

Guest Editors:

**Dr. Yuan-Pei Yang**

South-Western Institute for  
Astronomy Research, Yunnan  
University, Kunming 650091,  
China

**Dr. Jieshuang Wang**

Tsung-Dao Lee Institute,  
Shanghai Jiao Tong University,  
Shanghai 200240, China

Deadline for manuscript  
submissions:

**closed (31 December 2021)**

### Message from the Guest Editors

The purpose of this Special Issue of *Galaxies* is to provide an overview of the main challenges and issues that the FRB field is currently confronted with, including the physical origin, propagation, observation properties, and statistical characteristics of FRBs. Original research articles and reviews are welcome. We look forward to receiving your contributions.

Keywords:

- fast radio bursts
- magnetars
- radio transient sources
- X-ray bursts
- interstellar plasma

an Open Access Journal by MDPI

Andalucía (IAA-CSIC), Glorieta de  
la Astronomía S/N, 18008  
Granada, Spain

## Message from the Editorial Board

*Galaxies* provides an advanced forum for studies related to astronomy, astrophysics, and cosmology, including all of their subfields. Different formats, such as specialized research articles, reviews, communications and technical notes are welcomed. Manuscripts containing original and creative research proposals and ideas are especially appreciated.

We encourage scientists to publish their astronomical observations and theoretical results in as much detail as possible. There is no restriction on the paper length and full experimental and methodological details, as applicable, should be provided. All papers will be peer reviewed promptly. On behalf of the distinguished members of the editorial board, I extend my welcome to all researchers working on these subjects to contribute to *Galaxies*.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, ESCI (Web of Science), Astrophysics Data System, INSPIRE, Inspec, and other databases.

**Journal Rank:** CiteScore - Q2 (*Astronomy and Astrophysics*)
