

Special Issue

Theory and Observations of Galactic Outflows

Message from the Guest Editors

We were wondering if you have had time to consider our offer to publish **free of charge** after successful peer-review and processing. Several authors are planning to submit review articles on the following topics: 1)

Observations of AGN-driven Galactic winds (**Francisco Müller-Sanchez**) 2)

Observations of starburst-driven Galactic winds (**David Rupke**) 3) *Theory of AGN-driven Galactic winds* (**Alexander Wagner**) 4)

Theory of starburst-driven Galactic winds (**Dong Zhang**) These reviews will certainly set a nice framework for this

Special Issue and we sincerely hope this invitation will receive your favorable consideration. Some of the non-

exhaustive list of key topics to be covered are as follows:

Guest Editors

Dr. Bernd Husemann

Max Planck Institute for Astronomy, Germany

Dr. Dominika Wylezalek

Astronomisches Rechen-Institut, Zentrum für Astronomie der Universität Heidelberg, 69120 Heidelberg, Germany

Dr. I-Ting Ho

Max Planck Institute for Astronomy, Germany

Deadline for manuscript submissions

closed (31 August 2018)

About the Journal

Message from the Editorial Board

Galaxies provides an advanced forum for studies related to astronomy, astrophysics, and cosmology, including all of their subfields. Different formats, such as specialized research articles, reviews, communications and technical notes are welcomed. Manuscripts containing original and creative research proposals and ideas are especially appreciated.

We encourage scientists to publish their astronomical observations and theoretical results in as much detail as possible. There is no restriction on the paper length and full experimental and methodological details, as applicable, should be provided. All papers will be peer reviewed promptly. On behalf of the distinguished members of the editorial board, I extend my welcome to all researchers working on these subjects to contribute to *Galaxies*.

Editors-in-Chief

Dr. Margo Aller

Department of Astronomy, University of Michigan, Ann Arbor, MI 48109-1042, USA

Dr. Jose L. Gómez

Instituto de Astrofísica de Andalucía (IAA-CSIC), Glorieta de la Astronomía S/N, 18008 Granada, Spain

Author Benefits

High Visibility:

indexed within Scopus, ESCI (Web of Science), Astrophysics Data System, INSPIRE, Inspec, and other databases.

Journal Rank:

JCR - Q2 (Astronomy and Astrophysics) / CiteScore - Q2 (Astronomy and Astrophysics)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 23.4 days after submission; acceptance to publication is undertaken in 4.8 days (median values for papers published in this journal in the first half of 2025).
