

Special Issue

Physical Origin and Observation Properties of Fast Radio Bursts

Message from the Guest Editors

The purpose of this Special Issue of *Galaxies* is to provide an overview of the main challenges and issues that the FRB field is currently confronted with, including the physical origin, propagation, observation properties, and statistical characteristics of FRBs. Original research articles and reviews are welcome. We look forward to receiving your contributions. Keywords:

- fast radio bursts
- magnetars
- radio transient sources
- X-ray bursts
- interstellar plasma

Guest Editors

Dr. Yuan-Pei Yang

South-Western Institute for Astronomy Research, Yunnan University, Kunming 650091, China

Dr. Jieshuang Wang

About the Journal

Message from the Editorial Board

Galaxies provides an advanced forum for studies related to astronomy, astrophysics, and cosmology, including all of their subfields. Different formats, such as specialized research articles, reviews, communications and technical notes are welcomed. Manuscripts containing original and creative research proposals and ideas are especially appreciated.

We encourage scientists to publish their astronomical observations and theoretical results in as much detail as possible. There is no restriction on the paper length and full experimental and methodological details, as applicable, should be provided. All papers will be peer reviewed promptly. On behalf of the distinguished members of the editorial board, I extend my welcome to all researchers working on these subjects to contribute to *Galaxies*.

Editors-in-Chief

Dr. Margo Aller

Department of Astronomy, University of Michigan, Ann Arbor, MI 48109-1042, USA

Dr. Jose L. Gómez

Instituto de Astrofísica de Andalucía (IAA-CSIC), Glorieta de la Astronomía S/N, 18008 Granada, Spain

Author Benefits

High Visibility:

indexed within Scopus, ESCI (Web of Science), Astrophysics Data System, INSPIRE, Inspec, and other databases.

Journal Rank:

JCR - Q2 (Astronomy and Astrophysics) / CiteScore - Q2 (Astronomy and Astrophysics)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 25.8 days after submission; acceptance to publication is undertaken in 5.9 days (median values for papers published in this journal in the second half of 2025).
